Student Manual

Classwide Campus Application using Fundamental & Extended Geospatial Tools

Project 1 – Exploring Geospatial Networks

Project Overview Page	1
Project Plan	3
Project Implementation – Creating the Campus Surface Model	5
GPS Recording Log – Campus Surface Data	17
Project Implementation – Adding Campus Feature Data	21
GPS Recording Log – Campus Feature Data	33
Project Presentation – Creating Map Layouts	37
Project Presentation – Written Report Instructions	41
Project Presentation – Oral Report Instructions	43

Project Introduction

Project Overview Page A-1

Presentation Notes (1) A-3

Project Planning

Project Plan Worksheet A-11

Project Implementation

Presentation Notes (2) A-17

Data Acquisition & Collection A-23

Data Acquisition:

Adding Fields to Existing Data Tables A-24

Mapping & Labeling Campus Trees A-25

Creating the Data Log Spreadsheet A-26

Data Collection:

Collecting Species Data A-28

Collecting Type Data A-29

Collecting Origin Data A-29

Collecting Habitat Data A-29

Collecting Height Data A-30

Collecting Diameter Data A-31

Collecting Age Data A-32

Collecting Condition Data A-35

Collecting Merchantable Height Data A-36

Collecting Merchantable Diameter Data A-37

Data Processing & Analysis A-63

Data Entry A-39

Estimating Tree Age Mathematically A-40

Mapping Tree Attributes A-43

Tree Growth Analysis A-46

Table of Contents

<i>Energy Conservation Analysis</i>	A-51
<i>Storm Water Runoff Reduction Analysis</i>	A-62
<i>Merchantability Analysis</i>	A-71
Project Presentation	
Written Report Instructions	A-83
Oral Report Instructions	A-85
Assessment Materials	
Map Layout Examples	A-89
Written Report Example.....	A-101
Written Report Rubric	A-109
Oral Report Rubric.....	A-111
Self Evaluation Form.....	A-113
Peer Evaluation Form	A-115
Presentation Notes	
PowerPoint Presentation 1	A-119
PowerPoint Presentation 2	A-135
Appendix A	
Instructions for Winter Tree Finder Manual.....	AA-3
